

Got Food?

"We Help You Keep Your Customers"

BDS offers various types of greases that comply with FDA regulations for all your food industry needs. From Lubriplate FG-2 to Krytox 227FG, we can fully degrease and re-lubricate all of your bearings for the Food Industry.

Our Class 1000 Cleanroom allows us to degrease and re-lubricate sealed, as well as shielded bearings, without damage or removal. We offer our certificate of re-lubrication with every order giving the date as well as the batch information on your specific order.

NO JOB IS TOO LARGE OR TOO SMALL

We are very innovative, and look forward to helping you with any requirements you may have.
